

NSSF-BIS EXPORT TRAINING AGENDA

NSSF is pleased to provide a full day of NSSF-BIS joint export training focused on the transition of firearms, ammunition, and accessories from control under the Directorate of Defense Trade Control (DDTC), U.S. State Dept. to control under the Bureau of Industry and Security (BIS), U.S. Commerce Dept. This comprehensive training session will include a variety of presentations to help attendees learn about the EAR and how the new regulations need to be implemented in your company's export business. BIS and industry expert personnel will be presenting detailed information on a wide range of EAR topics as shown below. This important training is critical for exporters to learn and understand the EAR.
